

Middle States Vice President Visits Lehman College

By Don Sutherland

Middle States Commission on Higher Education (MSCHE) Vice President and Staff Liaison to Lehman College, Dr. Tito Guerrero, visited the Lehman College campus on Tuesday, April 18. During his visit, he met with President José Cruz, Interim Provost Harriet Fayne, the College's Self-Study Steering Committee, as well as faculty, staff, students, and a member of the Board of Trustees.

The discussions were productive and informative. Dr. Guerrero was impressed by the College's early engagement in the Self-Study process and the direction set forth in its Self-Study Design Document. Dr. Guerrero's insights and guidance will facilitate Lehman College's ability to undertake a useful Self-Study process that will promote institutional improvement.

Lehman College will incorporate Dr. Guerrero's feedback into all aspects of its Self-Study effort, as it moves into the most substantive part of its inquiry in coming months.
