

Assessment Network of New York's Annual Conference

By Don Sutherland

This year's theme is "Stepping Up for Social justice: Assessment in the Service of Equity and Inclusion." Colleges and universities have been in the forefront of addressing these issues in admissions, addressing achievement differences, and in promoting student success. Assessment can contribute to outcomes that empower students and promote socioeconomic mobility among diverse student populations in providing findings and shaping decisions that reinforce progress toward those outcomes.

The conference will be held from April 10-12, 2019 at the Embassy Suites by Hilton in Saratoga Springs, New York.

Information including keynote speakers, the conference schedule, lodging, and registration can be found [here](#).
